NEXT COMMITTEE MEETING, WEDNESDAY OCTOBER 30th

NEXT GENERAL MEETING, TUESDAY NOVEMBER 4th.

Report on General Meeting held at The Coach House on October 1.

Ken Hep in the absence of “El Presidete” chaired a meeting of 20 members. We had some apologies through holidays and ill health. Hoping for safe passage to all.

Reports were received from all groups and an update on the approaching show was given and not a dispute arose, maybe they were asleep.

General chatter and discussion continued until the billy had boiled. All over red rover. No news, good news.

.Laurie thought that the members might like a reminder on some of the Guide for Members. Just a page or two from our “Bible”

- All equipment is different in operation. The committee needs to know that you have a basic knowledge of our equipment and your obligations to ensure the safety of everyone (including yourself) in the workshop.
- Club equipment is not to be removed or borrowed by members or others for use outside of the club premises.
- All machines, including lathes must not be left running when unattended at any time.
- If you find or have any problem with any machinery at all, it is your responsibility to notify office bearers immediately.
- The club provides equipment in the workshop for your use on personal projects. However, your membership does not include the cost of consumable items to complete these personal projects. You are expected to provide your own timber, screws, nails, glue, sandpaper, fillers, paints, stains, sealers and polishes for your projects. Members are expected to reimburse the club for the use of the machinery to help with the maintenance and sharpening of this equipment.
- All timber at the clubhouse belongs to the club and is for sale to members. Also available at the club is end sealer, beeswax and standard sealer.
- Pen parts are also available.

A lesson on anger management.

Husband: "When I get mad at you, you never fight back. How do you control you anger!"

Wife: "I clean the toilet".

Husband: "How does that help?"

Wife: "I use your toothbrush."

Went to the wood show, not much has changed except the location. One positive, plenty of room. It took a long time to get to the head of the queue to get a coffee and even longer to use the only toilet available.

DO you remember that the show is a happening thing on November 8th? Of course you did! I hope you are coming along on Friday to help prepare for Saturday. If possible could you bring along a power lead and power board, just in case.

"Hey mate" said the back seat taxi passenger tapping the driver on the shoulder. The driver screamed and lost control of the cab, hitting a bus, mounting the kerb and stopping centimeters from a glass plate window. For a few moments every thing was silent, then the driver gasped, "You scared the daylights out of me!" "I'm sorry" gasped the passenger "I didn't realize a tap on the shoulder would frighten you so much" "Its not you fault" the driver said" Today is my first day driving a taxi. I've been driving a hearse for the past 25 years."
